PMI is an industry leader in the design and manufacturing of RF and Microwave Frequency Discriminators and IFM. These products are ideal for Automatic Lock on VCO’s Jammers, Frequency Control (AFC) Systems and High-fidelity FM Demodulation System applications. Custom units can be designed and built to your specifications.

Features:
- High Speed
- Octaveband & Broadband Models up to 18 GHz
- Digital or Analog output
- Small Size & Standardized Packaging
- Each unit has a unique serial number and date code
- Test data for each unit supplied with every delivery

Options:
- Connector Type Options
- Optimized Frequency ranges to meet your requirements
- Operating temperature ranges from -54°C to +85°C
- Hermetic Sealing available
- Military or Aerospace Screening available
