Attention: Edward Elder

Subject: Qualification Test Procedure 130-T001-000, Rev -
Northrop Grumman drawing 561R902, Device H01, Rev A

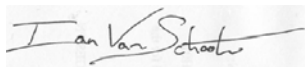

Mr. Elder,

The subject Qualification Test Procedure has been reviewed by Northrop Grumman Engineering and is approved for use in final Qualification Inspection. Please retain this approval letter with the QTP. Any changes to the QTP must be submitted for approval on a Vendor Engineering Change Request (VECR).

Approval of the subject test plan does not relieve the manufacturer in any way of the requirements of the individual specification drawing.

Thank you for your continued support.

Sincerely,

Component Engineer

Wayne Gibbs
