

High Performance Amplifiers to 70 GHz

- Available in Low Noise, Limiting, Variable Gain, Low Cost, Test Bench & Lab Use Configurations
- Features include Broadband, Unconditional Stability, Low Noise Figure, High Gain & Psat
- Dual Use - Surface Mount & Connectorized
- Industry-leading customer and applications support
- Hermetic Sealing, Military or Aerospace Screening
- Form, Fit, Function & Custom Design Services

Quantic PMI designs and manufactures a full range of solutions for your most demanding RF and Microwave challenges.

Broadband & Multioctave Amplifiers

Broadband, High IP Amplifiers for SIGINT

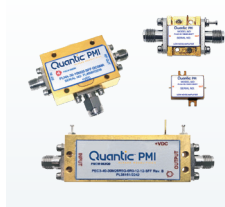

Limiting Amplifiers

Log Video Amplifiers (DLVA, ERDLVA, SDLVA)

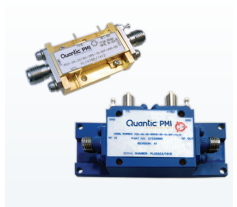

Power Amplifiers

Ultra-Broadband Low Noise Amplifiers (LNAs)

Test Bench & Lab Use Amplifiers

Variable Gain Amplifiers
