

Integrated Microwave Assemblies

to 70 GHz

- Modern hybrid MIC/MMIC design includes: Amplification, Attenuation, Filtering, Switching, Phase Shifting, Power Detection, Modulation, Coupling, Limiting, Digital Control
- Industry-leading customer and applications support
- Hermetic Sealing, Military or Space Screening
- Custom & Application Specific designs

Quantic PMI designs and manufactures a full range of solutions for your most demanding RF and Microwave challenges.

Form, Fit, Functional Products & Services

Integrated Modules & Assemblies (IMAs)

Integrated Switches & Switch Matrices

I/Q Vector Modulators

Log Video Amplifiers (DLVA, ERDLVA, SDLVA)

Open VPX Architecture Modules & Assemblies

Switched Filter Banks

Rack & Chassis Mount Products
